

ENVIRONMENTAL POLICY STATEMENT

As an ISO 14001:2004 accredited company, **A McKie Building & Engineering Services Ltd** strive to continually ensure we are effectively managing and improving our environmental performance thus minimising the impacts of our business on the environment.

It is the policy of A McKie Building and Engineering Services Ltd to:-

- Minimise the extent of the environmental impact of field operations within the sphere of influence;
- Liaise closely with the Client on potential environmental issues and work with them to address issues and concerns, in so far as site constraints permit;
- Foster a constructive working environment through liaison with authorities as well as with other local interested parties;
- When and where suitable employ best practicable means (BPM);
- Strive to minimise any emissions or effluents which may cause environmental damage;
- Conserve energy through minimising consumption and maximising efficiency;
- Minimise the use of materials which may be harmful to the environment;
- Employ sound waste management practices;
- Put in place procedures and support information that enables compliance with the law, regulations and technical guidelines relating to environmental issues;
- Provide suitable induction/training on environmental issues for site personnel;
- Recognise and encourage the contribution every employee can make towards improving environmental performance;
- Develop procedures and where appropriate set targets for environmental management performance;
- Sustain and develop this policy by the implementation of the Environmental Management System;
- Monitor environmental performance, make regular reviews of this policy and our performance and institute improvements where possible.

Commitment - We Will:

- Integrate environmental management with the safe and efficient operation of Network Rail Managed Infrastructure, treating all legal obligations as the minimum standard.
- Work to prevent pollution, make more efficient use of natural resources and minimise emissions and wastes, focusing on those activities with the most significant impacts.
- Assess the environmental impacts of our maintenance and investment plans and take action to avoid adverse impacts, or reduce these to a practicable minimum.
- Be sensitive to people that are affected by the railway.

This policy is communicated to all employees, suppliers and sub-contractors and is made available to the public. All personnel understand their obligations under this policy statement, and abide with the principals and contents of the Environmental Management System Manual.

A McKie Building & Engineering Services Ltd constantly monitors and reviews its environmental performance and this Environmental Policy Statement in order to ensure its continuing suitability, and will implement appropriate improvements.

Archie McKie
Managing Director

A McKie Building & Engineering Services Ltd
